Re: Water Right No's. S2-30339, S2-30340 & S2-30341

Dear Mr. Davis,

This letter is to remind you that the development schedule of your permits required that you complete construction of your projects by **June 1, 2008**. If you have completed construction, please fill out and return the *Construction Notice* within **30 days**.

If you have not completed construction of your project, you must obtain an extension or your permit may be cancelled. **Your request must be in writing and include the following information:**

- A description of the efforts you have made to complete the project.
- A schedule for completing the project.
- Reasons why the project has not been completed.
- Any additional information that will assist us in evaluating your request for an extension.
- A **non-refundable fee of \$50.00**.

If requesting an extension, mail your request together with your check or money order to:

Department of Ecology
Cashiering Section
PO Box 47611
Olympia, WA 98504-7611

If you are no longer interested in pursuing the project, please contact this office in writing. If you have any questions, please contact Charlotte Lattimore at (360)407-0274 or clat461@ecy.wa.gov.

Sincerely,

Charlotte Lattimore

Dear Mr. & Mrs. Kettel:

RE: Permit No. **S2-30340**

Enclosed is your permit No. **S2-30340**, which includes your Development Schedule.

Completion of Construction form

According to your permit, you are to finish construction on your water project on or before **June 1, 2008**. When the work is completed, you must complete and submit the enclosed "Construction Notice: Completion of Construction" form. Please return the form to the Water Resources Program at Ecology's Southwest Regional Office.

If we do not receive the completed form by **June 1, 2008**, and do not hear from you otherwise, your permit may be cancelled. We understand that occasionally there are extenuating circumstances that may delay the completion of a project. In this case, you **must** contact us, **in writing**, to request an **extension**.

This is the only notice you will receive from us about submitting the "Completion of Construction" form. It is your responsibility to keep track of the development schedule dates specified in your permit.

Completing construction and submitting the "Completion of Construction" form are essential parts of the process towards securing a water right certificate. After submission of that form, your next deadline is associated with putting the water to full beneficial use.

Read your permit

Please read through your entire permit, along with the enclosed water right information sheet, to be sure you fully understand the terms and responsibilities associated with your permit. It is important to remember that this permit is not a *final* water right; it is permission by the state to develop a water right.

If we can provide any further assistance, please contact our office at (360) 407-6300.

Sincerely,

Thomas Loranger
Water Resources Section Manager
